If I do not understand something in English, I can ask the other person to slow down or say it again.

I can pay attention to specific parts of the language input or the situation that will help my learning

Lesson 1

AIMS

- To recognise words and expressions which show author's attitude
- To raise awareness about the various factors about the food we eat, where it comes from and how it is produced.

Lead-in

Task 1

Read the text on the painting and find the topic. Is the author's attitude to the painting positive, negative or neutral? Underline the words in the text which support your answer.

Arcimboldo's portraits of human heads made up of vegetables, fruit and tree roots, were greatly admired by his contemporaries and remain a source of fascination today. It is now being debated by art critics whether these paintings were whimsical or the product of a deranged mind.

Task 2

A. Look at the paintings and say which ones are about the seasons and which are about food.

c. Botticelli

a. Tsarouhis

b. Van Gogh

d. Pissaro

B. Write the nationality of each artist under each painting: French, Italian, Dutch, Greek. Choose the names of each of the paintings and write them above the painting.

Spring

Apple Picking

Wheatfield

Four Seasons

C. Say how you feel about one of these paintings without using like or dislike. Make a one-minute presentation to your class. Your classmates will guess your attitude.

Task 3

Read the statements a-f and guess at the region they refer to. You can ask your Geography teacher to help you.

- Whales are being hunted for their meat and oil.
- Wheat is grown on the prairies.
- Olive oil is produced by the local farmers.
- Seafood is caught by driftnet fishing.
- Coffee beans are left to mature before they are sent to factories.
- Rice is planted in paddy fields.

Task 4 - Food and culture

A. What kinds of meat can be eaten by people?

shark ☐ horsemeat ☐ dog meat ☐ lamb ☐

B. Read the text below and then complete the spidergram in TASK 5.

Alligators exist in many parts of the world, but they are unacceptable as food by many people. Likewise, kangaroos, horses, turtles, and dogs are eaten (and are even considered a delicacy) in some cultures, though they are unacceptable food sources in other cultures.

Task 5 - Factors affecting what people eat

A. Work in small groups. Write sentences and say how each factor influences what people eat.

B. What kind of food do Greek people eat that other cultures might find unacceptable? (e.g. *κοκορέτσι*, *γουρουνόπουλο*, etc.) Write sentences about this.

Example: Muslim people do not eat pork as it is considered unclean.

Reading 1 Task 1

Make a statement about where each of the different products on the right is grown. The Appendix maps can help you.

Task 2

A. Read the following text and underline things that you didn't know about olive oil.

Lesson 1

Olive Oil

Olive oil is obtained from the olive tree. It is commonly used in cooking, cosmetics, pharmaceuticals, and soaps and as a fuel for traditional oil lamps. The most traditional way of making olive oil is by grinding olives. First the olives are ground into an olive paste using large millstones. After grinding, the olive paste is spread on disks, which are stacked on top of each other, and then placed into the press. Then, pressure is applied onto the disk to further separate the oil from the paste. To help separation, water is run down the sides of the disks.

Olive oil is considered a healthy oil because of its high content of **monounsaturated** fat. Doctors say that monounsaturated fats in the diet is linked with a lower risk of heart disease.

B. In pairs, put the sketches into the correct sequence according to the information in the text.

Task 3

When companies want people to buy a product they write a slogan or catchy phrase. In small groups, decide which of the following are important in a slogan.

- | | |
|-------------|--------------------------|
| Attractive | ☐ |
| Long | ☐ |
| Funny | ☐ |
| Interesting | ☐ |
| Informative | ☐ |
| Complicated | ☐ |
| Relevant | ☐ |

Task 4

A. Skim through the text to find four different uses of sugar. Compare your ideas with your partner's.

- a) _____ b) _____
c) _____ d) _____

Sugar cane is a grass and the source of 70% of the world's sugar which is extracted from the sweet, juicy stems. Sugar was first found in New Guinea and then taken to South Asia; then with Arab farmers to the Mediterranean. The word 'candy' is derived from the Arabic word qandi, meaning a sweet confection.

Apart from being used in the production of sweets and cakes, it is an important source of ethanol fuel in countries like Brazil today which has large sugar plantations and lots of space to grow sugar. Apart from fuel, it has been used to treat a wide variety of health complaints like coughs. It has also been used externally to treat skin problems, a use that is being supported by science: Ayurvedic medicine, for example. A common folk remedy is to mix fresh stem juice with dry ginger in order to relieve hiccups. Pieces of sugar cane are chewed for their sugary syrup, and are a popular street food in South Asia. This was the original use of sugar cane. Traditional methods are still used to produce characteristic Indian sugars such as gur.

B. Read the text again and answer the comprehension questions that follow.

- a) What everyday products are made from sugar cane?
b) Why is the largest amount of ethanol produced in Brazil?

c) Crops are collected
d) Ethanol is used to make alternative fuel
e) Grains are finely ground
f) Sugars are distilled to make ethanol
